

Key Stage 4 Edexcel B Geography *Controlled Assessment, 1day*

Students will have an opportunity to extend research and undertake fieldwork in an appropriate environment in order to prepare their portfolio to take forward to the high control 'write up' phase of their controlled assessment. The field work will be based on the pre-released titles from Edexcel B.

This day course will focus on the collection of data in the field and provide additional background research material for the creation of a portfolio.

COURSE CONTENT

The focus for the selected study will change annually to meet the requirements of the controlled assessment and to match OCR's set title.

CHOOSE ONE TOPIC FROM THE LIST BELOW TO PREPARE FOR THE CONTROLLED ASSESSMENT

Coastal Environments

The focus of this session is to prepare and collect data for the controlled assessment (Unit 4: Researching Geography). It also covers content from the Coastal Change section of Unit 1 (Dynamic Planet).

River Environments The focus for this session is to prepare and collect data for the controlled assessment (Unit 4: Researching Geography). It also covers content from the River Processes and Pressures section of Unit 1 (Dynamic Planet).

Countryside Environments The focus for this session is to prepare and collect data for the controlled assessment (Unit 4: Researching Geography). It also covers content within Section B of Unit 2 (People and the Planet).

City Environments The focus for this session is to prepare and collect data for the controlled assessment (Unit 4: Researching Geography). It also covers content within Section B of Unit 2 (People and the Planet).

LEARNING OBJECTIVES/OUTCOMES

Learning Objectives	Learning Outcomes
<ul style="list-style-type: none"> Gain case study knowledge of the environment investigated <p>Learning Objectives related to the Controlled Assessment:</p> <ul style="list-style-type: none"> Gain greater understanding of different approaches to primary data collection Consider how data can be presented Understand the different stages through a route to enquiry, including a pre-fieldwork phase setting up the study, fieldwork, data presentation, analysis and evaluation 	<p>All students will:</p> <ul style="list-style-type: none"> Describe the issue to be studied including aims and a location Carry out fieldwork in the outdoor classroom, collecting data for the controlled assessment Describe different data collection techniques for the investigation Collect a variety of information, first hand, including quantitative and qualitative data <p>Most students will:</p> <ul style="list-style-type: none"> Use GIS information to aid the enquiry process Use OS maps and aerial photos to aid the investigation Use field sketches/photos/maps <p>Some students will:</p> <ul style="list-style-type: none"> Explain a clear aim and purpose for the study including a context for the investigation Apply appropriate data collection methods and present some justification for them

"The controlled assessment grades from our current year 10 are brilliant. Over 80% of the students got A or A. Thank you so much for your hard work"* **Bromley High School**
